

PLANTSKIRT LARGE

Pot, tray, fittings, and pipe, only incl. with PlantSkirt Complete Kits. Substrate not incl.

IDEAL FOR GROWING IN OPEN TRAYS

FOR TRAYS OF 80-100CM / 31-39.5 SQ

FOR POTS WITH A MAX DIA. OF 70CM / 27.5"

PREVENTS RISK OF ALGAE GROWTH IN OPEN TRAYS

STOPS EVAPORATION OF NUTRIENT SOLUTION

REFLECTS LIGHT BACK ONTO PLANTS - ENHANCING GROWTH

KEEPS TEMPERATURE STABLE IN NUTRIENT SOLUTION AND SUBSTRATE

AutoPot PlantSkirt is a heat and light-reflective shield that protects nutrient solution and substrate from temperature fluctuation, algae and debris when growing in open trays.

Paired with an AQUAvalve it provides a solution for growing even the largest of plants with AutoPot Watering Systems.

Above: PlantSkirt Large can be used with 80-100cm / 31.5-39.5" sq trays.

Pot, tray, fittings, and pipe, are only incl. with PlantSkirt Complete Kits. Substrate not incl.

- 1x 16-9mm / 1/2-3/8" X Connector,
- 1x 9mm / 3/8" Tee Connector

PlantSkirt Large - Contents:

- 1x PlantSkirt Large

Using PlantSkirt with AQUAvalveTM and garden trays

1		<p>Position your pot centrally in your tray.</p> <p>Fill pot with medium and pot up plants. Water through pot and allow to drain.</p>
2		<p>Place AQUAvalve PotSock onto the tray - gold face out. Place metal plate into PotSock.</p>
3		<p>Remove AQUAvalve collar. Take one end of Elbow Bar assembly and push 9mm / 3/8" pipe through collar and attach to AQUAvalve nozzle.</p> <p>Rescrew AQUAvalve collar - DON'T overturn...when you feel it grip STOP</p>
4		<p>Place connected AQUAvalve onto plate inside the PotSock. Fit AQUAvalve Cover.</p> <p>Connect the AQUAvalve to your water supply.</p>
5		<p>The PlantSkirt is secured around the middle of the pot and the outer rim of the tray.</p> <p>Secure in place with the PlantSkirt's drawstrings.</p>
6		<p>Once the drawstrings are pulled tight the PlantSkirt provides an effective seal preventing light and debris from entering the tray.</p>
