DIRECTIONS FOR USE

Empty the contents of this bag into your CO₂ Generator.

Then **add hot (not boiling) water** at the following amount according to the size of your CO₂ Generator:

5L CO₂ Generator - add 1.25L of water to the CO₂ Generator

10L CO₂ Generator - add 2.5L of water to the CO₂ Generator

Allow 24hrs before you use the CO₂ Generator.

This 24hr period is essential in order for the contents to properly activate.
